DETAILED ACTION

Drawings

1. The proposed drawing corrections with regards to figure 5 have been disapproved because they introduce new matter. The explanatory text did not provide evidence to overcome prior contention by the examiner including showing the support strap splitting into two parts with the second part running from a point dorsally over the thorax and then rejoining the second part.

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 2. Claim 21 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification fails to disclose the support strap dividing with the second part rejoining the first part.

Claim Rejections - 35 USC § 102

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 1, 3-6, and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Abolina (SU 321,252). See paragraph 16 of the office action dated November 28, 2001. Furthermore, in the figures of Abolina, the upper arm part (2) has a portion extending across the back wherein an end of the holding strap is secured to the 'upper arm part'.

Claim Rejections - 35 USC § 103

- 5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 6. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Abolina in view of Lindenmeyer (5,599,283). Please refer to paragraph 8 of the office action dated September 17, 2003.
- 7. Claims 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abolina in view of Munoz. Please refer to paragraphs 9-10 of the office action dated September 17, 2003.
- 8. Claims 11-12 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abolina in view of Johnson (4,550,869). Please refer to paragraphs 11-12 of the office action dated September 17, 2003.

9. Claims 13-15 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Aboline in view of Ford. Please refer to the paragraph 13 of the office action dated September 17, 2003.

10. Claims 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abolina in view of Ford as applied to claim 13 above, and further in view of Cherbini. Please refer to paragraph 14 of the above cited office action.

Response to Arguments

11. Applicant's arguments filed 02/26/2004 have been fully considered but they are not persuasive. Specifically, with regards to claim amendments to overcome Abolina, as broadly read, Abolina still meets the required claim limitations as Abolina shows a strap extending from the forearm part to the upper arm part. With regards to the new matter objections, examiner has reread portions of the specification pointed out by Applicant, discussing the divided strap. At no point in the specification is there any mention of the second part of the divided strap extending dorsally around the thorax and then rejoining the first strap at a ventral portion of the thorax.

Conclusion

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3764

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
